CAUTIONARY STATEMENT

This Investor Presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In general, forward-looking statements usually may be identified through use of words such as "may," "believe," "expect," "anticipate," "intend," "will," "should," "plan," "estimate," "predict," "continue" and "potential," or the negative of these terms or other comparable terminology. Forward-looking statements are not historical facts and represent management's beliefs, based upon information available at the time the statements are made, with regard to the matters addressed; they are not guarantees of future performance. Actual results may prove to be materially different from the results expressed or implied by the forward-looking statements. Forward-looking statements are subject to numerous assumptions, risks and uncertainties that change over time and could cause actual results or financial condition to differ materially from those expressed in or implied by such statements.

Factors that could cause or contribute to such differences include, but are not limited to general competitive, economic, political, regulatory and market conditions. Further information regarding additional factors which could affect the forward-looking statements contained in this press release can be found in the cautionary language included under the headings "Cautionary Note Regarding Forward-Looking Statements" and "Risk Factors" in United's Annual Report on Form 10-K for the year ended December 31, 2023, and other documents subsequently filed by United with the United States Securities and Exchange Commission ("SEC").

Many of these factors are beyond United's ability to control or predict. If one or more events related to these or other risks or uncertainties materialize, or if the underlying assumptions prove to be incorrect, actual results may differ materially from the forward-looking statements. Accordingly, shareholders and investors should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date of this communication, and United undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. New risks and uncertainties may emerge from time to time, and it is not possible for United to predict their occurrence or how they will affect United.

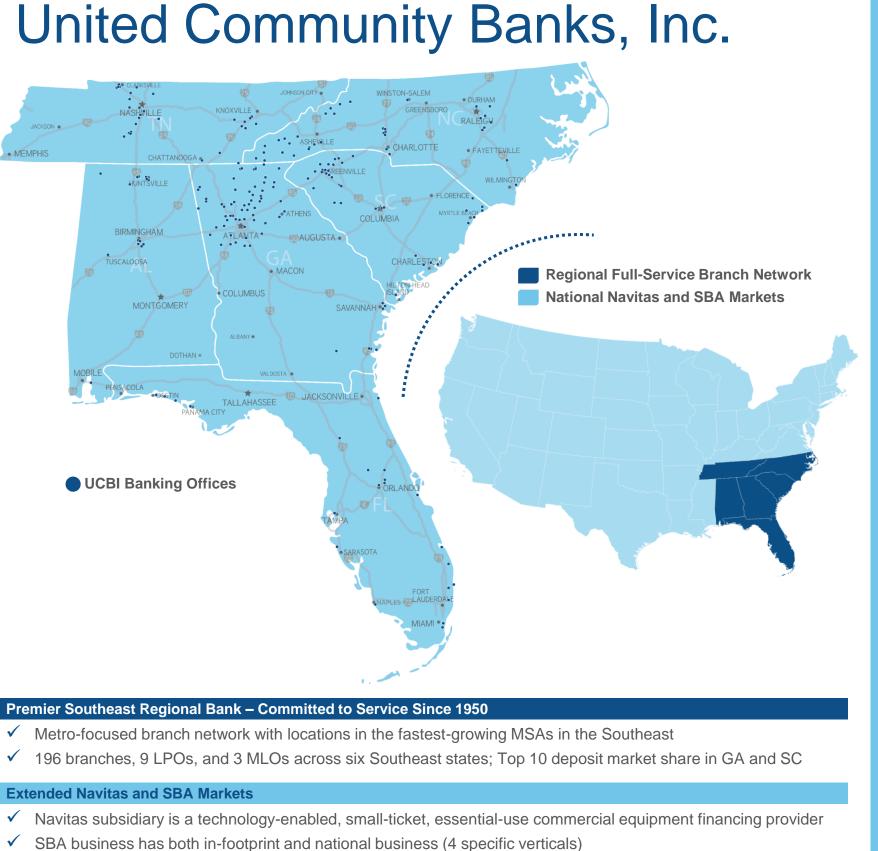

United qualifies all forward-looking statements by these cautionary statements.

NON-GAAP MEASURES

This Investor Presentation includes financial information determined by methods other than in accordance with generally accepted accounting principles ("GAAP"). This financial information includes certain operating performance measures, which exclude merger-related and other charges that are not considered part of recurring operations, such as "operating net income," "pre-tax, pre-provision income," "operating net income per diluted common share," "operating earnings per share," "tangible book value per common share," "operating return on common equity," "operating return on tangible common equity," "operating return on assets - pre-tax pre-provision - operating," "return on assets - pre-tax, pre-provision," "operating efficiency ratio," and "tangible common equity to tangible assets."

These non-GAAP measures are included because United believes they may provide useful supplemental information for evaluating United's underlying performance trends. Further, United's management uses these measures in managing and evaluating United's business and intends to refer to them in discussions about United's operations and performance. These measures should be viewed in addition to, and not as an alternative to or substitute for, measures determined in accordance with GAAP, and are not necessarily comparable to non-GAAP measures that may be presented by other companies. To the extent applicable, reconciliations of these non-GAAP measures to the most directly comparable measures as reported in accordance with GAAP are included with the accompanying financial statement tables.
