SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 31, 2008

OR

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the Transition Period from _____ to _____

Commission file number 0-21656

UNITED COMMUNITY BANKS, INC.

(Exact name of registrant as specified in its charter)

Georgia
(State of Incorporation)

58-1807304
(I.R.S. Employer Identification No.)

63 Highway 515
Blairsville, Georgia
Address of Principal Executive Offices

30512
(Zip Code)

(706) 781-2265
(Telephone Number)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

YES NO

Common stock, par value \$1 per share: 47,004,223 shares
outstanding as of March 31, 2008

PART I - Financial Information

Item 1. Financial Statements.	
Consolidated Statement of Income (unaudited) for the Three Months Ended March 31, 2008 and 2007	2
Consolidated Balance Sheet at March 31, 2008 (unaudited), December 31, 2007 (audited) and March 31, 2007 (unaudited)	3
Consolidated Statement of Changes in Shareholders' Equity (unaudited) for the Three Months Ended March 31, 2008 and 2007	4
Consolidated Statement of Cash Flows (unaudited) for the Three Months Ended March 31, 2008 and 2007	5
Notes to Consolidated Financial Statements	6
Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.	12

SEE NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Accounting Policies

The accounting and financial reporting policies of United Community Banks, Inc. ("United") and its subsidiaries conform to accounting principles generally accepted in the United States of America and general banking industry practices. The accompanying interim consolidated financial statements have not been audited. All material intercompany balances and transactions have been eliminated. A more detailed description of United's accounting policies is included in the 2007 annual report filed on Form 10-K.

In management's opinion, all accounting adjustments necessary to accurately reflect the financial position and results of operations on the accompanying financial statements have been made. These adjustments are normal and recurring accruals considered necessary for a fair and accurate presentation. The results for interim periods are not necessarily indicative of results for the full year or any other interim periods.

Note 2 - Stock-Based Compensation

United has an equity compensation plan that allows for grants of incentive stock options, nonqualified stock options, restricted stock awards (also referred to as "nonvested stock" awards), stock awards, performance share awards or stock appreciation rights. Options granted under the plan can have an exercise price no less than the fair market value of the underlying stock at the date of grant. The general terms of the plan include a vesting period (usually four years) with an exercisable period not to exceed ten years. Certain option and restricted stock awards provide for accelerated vesting if there is a change in control (as defined in the plan). As of March 31, 2008, approximately 1,953,000 additional awards could be granted under the plan. Through March 31, 2008, only incentive stock options, nonqualified stock options and restricted stock awards had been granted under the plan.

The following table shows stock option activity for the first quarter of 2008.

<u>Options</u>	<u>Shares</u>	<u>Weighted- Average Exercise Price</u>	<u>Weighted- Average Remaining Contractual Term (Years)</u>	<u>Aggregate Intrinsic Value (\$000)</u>
Outstanding at December 31, 2007	2,912,557	\$ 21.57		
Granted	15,000	15.32		
Exercised	(65,450)	13.54		
Forfeited	(33,875)	29.14		
Expired	(15,800)	24.65		
Outstanding at March 31, 2008	<u>2,812,432</u>	<u>\$ 21.62</u>	<u>6.2</u>	<u>\$ 3,936</u>
Exercisable at March 31, 2008	<u>1,658,316</u>	<u>\$ 16.99</u>	<u>4.6</u>	<u>\$ 3,911</u>

The weighted average fair value of stock options granted in the first quarter of 2008 and 2007 was \$3.33 and \$8.80, respectively. The fair value of each option granted was estimated on the date of grant using the Black-Scholes model. Because United's option plan has not been in place long enough to gather sufficient information about exercise patterns to establish an expected life, United uses the formula provided by the Securities and Exchange Commission in Staff Accounting Bulletin No. 107 to determine the expected life of options. The key assumptions used to determine the fair value of stock options are presented in the table below.

	<u>Three Months Ended March 31,</u>	
	<u>2008</u>	<u>2007</u>
Expected volatility	23%	20%
Expected dividend yield	2.1% to 2.5%	1.1%
Expected life (in years)	6.25	6.25
Risk-free rate	2.9% to 3.5%	4.7%

United's stock trading history began in March of 2002 when United listed on the Nasdaq National Market. For 2008 and 2007, expected volatility was determined using United's historical monthly volatility over the period beginning in March of 2002 through the end of the last completed year. Compensation expense for stock options was \$549,000 and \$486,000 for the three months ended March 31, 2008 and 2007, respectively, which was net of deferred tax benefits of \$222,000 and \$114,000, respectively. The amount of compensation expense for both periods was determined based on the fair value of the options at the time of grant, multiplied by the number of options granted that were expected to vest, which was then amortized, net of any applicable tax benefit, over the vesting period. The forfeiture rate for options is estimated to be approximately 3% per year. The total intrinsic value of options exercised during the quarter ended March 31, 2008 and 2007 was \$275,000 and \$1,693,000, respectively.

The table below presents the activity in restricted stock awards for the first quarter of 2008.

<u>Restricted Stock</u>	<u>Shares</u>	<u>Weighted- Average Grant- Date Fair Value</u>
Outstanding at December 31, 2007	84,413	\$ 29.26
Granted	7,000	14.83
Vested	(11,037)	25.67
Cancelled	(3,000)	30.10
Outstanding at March 31, 2008	<u>77,376</u>	<u>\$ 28.43</u>

Compensation expense for restricted stock is based on the fair value of restricted stock awards at the time of grant, which is equal to the value of United's common stock on the date of grant. The value of restricted stock grants that are expected to vest is amortized into expense over the vesting period. For the three months ended March 31, 2008 and 2007, compensation expense of \$204,000 and \$129,000, respectively, was recognized related to restricted stock awards. The total intrinsic value of the restricted stock was \$1.3 million at March 31, 2008.

As of March 31, 2008, there was \$7.9 million of unrecognized compensation cost related to nonvested stock options and restricted stock awards granted under the plan. That cost is expected to be recognized over a weighted-average period of 1.4 years. The aggregate grant date fair value of options and restricted stock awards that vested during the quarter ended March 31, 2008, was \$322,000.

Note 3 – Common Stock Issued / Common Stock Issuable

United provides a Dividend Reinvestment and Share Purchase Plan (DRIP) to its shareholders. Under the DRIP, shareholders of record can voluntarily reinvest all or a portion of their cash dividends into shares of United's common stock, as well as purchase additional stock through the plan for cash. United's 401(k) retirement plan regularly purchases shares of United's common stock directly from United. In addition, United has an Employee Stock Purchase Program (ESPP) that allows eligible employees to purchase shares of common stock at a 5% discount, with no commission charges. For the three months ended March 31, 2008 and 2007, United issued 31,944 and 52,914 shares, respectively, and increased capital by \$503,000 and \$1.7 million, respectively, through these programs.

In the fourth quarter of 2005, United began offering its common stock as an investment option in its deferred compensation plan. The common stock component of the deferred compensation plan is accounted for as an equity instrument and is reflected in the consolidated financial statements as common stock issuable. At March 31, 2008 and 2007, 90,505 and 35,154 shares, respectively, are issuable under the deferred compensation plan.

Note 4 - Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share for the three months ended March 31.

(in thousands, except per share data)

	Three Months Ended March 31,	
	2008	2007
Net income available to common shareholders	\$ 16,074	\$ 19,340
Weighted average shares outstanding:		
Basic	46,966	43,000
Effect of dilutive securities:		
Stock options and restricted stock	220	878
Common stock issuable under deferred compensation plan	86	34
Diluted	47,272	43,912
Earnings per common share:		
Basic	\$.34	\$.45
Diluted	\$.34	\$.44

Note 5 - Mergers and Acquisitions

On June 1, 2007, United acquired 100 percent of the outstanding common shares of Gwinnett Commercial Group, Inc. (Gwinnett), a community bank holding company headquartered in Lawrenceville, Georgia. Gwinnett's results of operations are included in consolidated financial results from the acquisition date. Gwinnett was the parent company of First Bank of the South, a community bank with five full service banking offices serving the north metro Atlanta counties of Gwinnett, DeKalb and north Fulton and a commercial loan office in Walton County. United has continued to expand its presence in metropolitan Atlanta and the acquisition of Gwinnett accomplished a long-standing strategic goal of encircling metro Atlanta. Additionally, Gwinnett brings strong commercial lending experience to better diversify United's business mix. The aggregate purchase price was approximately \$222.9 million, including 5,691,948 shares of United's common stock and \$31.5 million in cash that was exchanged for all of the outstanding common shares and options to purchase common shares of Gwinnett. The value of the common stock issued of \$33.62 per share was determined based on the average of the closing market price of United's common shares over the period beginning two days before and ending two days after the terms of the acquisition were agreed to and announced.

The financial information below presents the pro forma earnings of United assuming that the results of operations of Gwinnett were included in consolidated earnings for the three months ended March 31.

	Three Months Ended March 31,	
	2008	2007
Total revenue	\$ 72,453	\$ 82,709
Net income	16,078	22,498
Diluted earnings per common share	.34	.45

At March 31, 2008, accrued merger costs of \$608,000 remained unpaid relating to acquisitions closed in 2007, 2006 and 2004. The severance and related costs include change of control payments for which payment had been deferred.

**Activity with accrued merger cost
For the Three Months Ended March 31, 2008**

	Beginning Balance	Amounts Paid	Ending Balance
Severance and related costs	\$ 2,481	\$ (1,877)	\$ 604
Professional fees	4	-	4
Totals	\$ 2,485	\$ (1,877)	\$ 608

Note 6 - Assets and Liabilities Measured at Fair Value

On January 1, 2008, United adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (“SFAS No. 157”). SFAS No. 157 defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. SFAS No. 157 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements; accordingly, the standard does not require any new fair value measurements of reported balances.

SFAS No. 157 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, SFAS No. 157 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity’s own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Fair Value Hierarchy

- Level 1 Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that United has the ability to access.
- Level 2 Valuation is based upon quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.
- Level 3 Valuation is generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity’s own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. United’s assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The following is a description of valuation methodologies used for assets and liabilities recorded at fair value

Securities Available for Sale

Investment securities available-for-sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security’s credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include mortgage-backed securities issued by government sponsored entities, municipal bonds and corporate debt securities. Securities classified as Level 3 include asset-backed securities in less liquid markets.

Deferred Compensation Plan Assets and Liabilities

Included in other assets in the consolidated balance sheet are assets related to employee deferred compensation plans. The assets associated with these plans are invested in mutual funds and classified as Level 1. Deferred compensation liabilities, also classified as Level 1, are carried at the fair value of the obligation to the employee, which mirrors the fair value of the invested assets and is included in other liabilities in the consolidated balance sheet.

Loans Held for Sale

Loans held for sale are carried at the lower of cost or market value. The fair value of loans held for sale is based on what secondary markets are currently offering for portfolios with similar characteristics. As such, United classifies loans subjected to nonrecurring fair value adjustments as Level 2.

Loans

United does not record loans at fair value on a recurring basis. However, from time to time, a loan is considered impaired and an allowance for loan losses is established. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Once a loan is identified as individually impaired, management measures impairment in accordance with SFAS 114, "Accounting by Creditors for Impairment of a Loan," (SFAS 114). The fair value of impaired loans is estimated using one of several methods, including collateral value, market value of similar debt, enterprise value, liquidation value and discounted cash flows. Those impaired loans not requiring an allowance represent loans for which the fair value of the expected repayments or collateral exceed the recorded investments in such loans. At March 31, 2008, substantially all of the total impaired loans were evaluated based on the fair value of the collateral. In accordance with SFAS 157, impaired loans where an allowance is established based on the fair value of collateral require classification in the fair value hierarchy. When the fair value of the collateral is based on an observable market price or a current appraised value, United records the impaired loan as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, United records the impaired loan as nonrecurring Level 3.

Foreclosed Assets

Foreclosed assets are adjusted to fair value upon transfer of the loans to foreclosed assets. Subsequently, foreclosed assets are carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price or a current appraised value, United records the foreclosed asset as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, United records the foreclosed asset as nonrecurring Level 3.

Goodwill and Other Intangible Assets

Goodwill and identified intangible assets are subject to impairment testing. United's approach to testing goodwill for impairment is to compare the business unit's carrying value to the implied fair value based on multiples of earnings and tangible book value for recently completed merger transactions. In the event the fair value is determined to be less than the carrying value, the asset is recorded at fair value as determined by the valuation model. As such, United classifies goodwill and other intangible assets subjected to nonrecurring fair value adjustments as Level 3.

Derivative Financial Instruments

Currently, United uses interest rate swaps and interest rate floors to manage its interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts and the discounted expected variable cash payments. The variable cash payments are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

The fair values of interest rate options are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates fell below the strike rate of the floors. The variable interest rates used in the calculation of projected receipts on the floor are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. To comply with the provisions of SFAS No. 157, United incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, United has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although United has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. However, as of March 31, 2008, United has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, United has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The table below presents United's assets and liabilities measured at fair value on a recurring basis as of March 31, 2008, aggregated by the level in the fair value hierarchy within which those measurements fall.

(in thousands)

Description	Level 1	Level 2	Level 3	Balance at March 31, 2008
Assets				
Securities available for sale	\$ -	\$ 1,508,402	\$ -	\$ 1,508,402
Deferred compensation plan assets	4,884	-	-	4,884
Derivative financial instruments	-	48,454	-	48,454
Total	<u>\$ 4,884</u>	<u>\$ 1,556,856</u>	<u>\$ -</u>	<u>\$ 1,561,740</u>
Liabilities				
Deferred compensation plan liability	\$ 4,884	\$ -	\$ -	\$ 4,884
Total	<u>\$ 4,884</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,884</u>

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

United may be required, from time to time, to measure certain assets at fair value on a nonrecurring basis in accordance with U.S. Generally Accepted Accounting Principles. These include assets that are measured at the lower of cost or market that were recognized at fair value below cost at the end of the period. The table below presents United's assets and liabilities measured at fair value on a nonrecurring basis as of March 31, 2008, aggregated by the level in the fair value hierarchy within which those measurements fall.

(in thousands)

Description	Level 1	Level 2	Level 3	Balance at March 31, 2008
Assets				
Loans	\$ -	\$ -	\$ 44,749	\$ 44,749
Foreclosed assets	-	-	13,583	13,583
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 58,332</u>	<u>\$ 58,332</u>

Note 7 – Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 159 (SFAS No. 159), *The Fair Value for Financial Assets and Financial Liabilities—including an amendment of FASB Statement No. 115*. This statement permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. This statement is expected to expand the use of fair value measurement, which is consistent with the FASB's long-term measurement objective for accounting for financial instruments. This statement became effective for United beginning January 1, 2008. United chose not to apply fair value measurements to any financial instruments in accordance with SFAS No. 159, and therefore, the adoption of this standard did not have a material effect on United's financial position, results of operations or disclosures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This Form 10-Q contains forward-looking statements regarding United Community Banks, Inc. ("United"), including, without limitation, statements relating to United's expectations with respect to revenue, credit losses, levels of nonperforming assets, expenses, earnings and other measures of financial performance. Words such as "may", "could", "would", "should", "believes", "expects", "anticipates", "estimates", "intends", "plans", "targets" or similar expressions are intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that are subject to change based on various factors (many of which are beyond United's control). The following factors, among others, could cause United's financial performance to differ materially from the expectations expressed in such forward-looking statements:

- our recent operating results may not be indicative of future operating results;
- our business is subject to the success of the local economies in which we operate;
- our concentration of construction and land development loans is subject to unique risks that could adversely affect our earnings;
- we may face risks with respect to future expansion and acquisitions or mergers;
- changes in prevailing interest rates may negatively affect our net income and the value of our assets;
- if our allowance for loan losses is not sufficient to cover actual loan losses, our earnings would decrease;
- we may be subject to losses due to fraudulent and negligent conduct of our loan customers, third party service providers or employees;
- competition from financial institutions and other financial service providers may adversely affect our profitability;
- business increases, productivity gains and other investments are lower than expected or do not occur as quickly as anticipated;
- competitive pressures among financial services companies increase significantly;
- the success of our business strategy;
- the strength of the United States economy in general changes;
- trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, change;
- inflation or market conditions fluctuate;
- conditions in the stock market, the public debt market and other capital markets deteriorate;
- financial services laws and regulations change;
- technology changes and United fails to adapt to those changes;
- consumer spending and saving habits change;
- unanticipated regulatory or judicial proceedings occur; and
- United is unsuccessful at managing the risks involved in the foregoing.

Additional information with respect to factors that may cause actual results to differ materially from those contemplated by such forward-looking statements may also be included in other reports that United files with the Securities and Exchange Commission. United cautions that the foregoing list of factors is not exclusive and not to place undue reliance on forward-looking statements. United does not intend to update any forward-looking statement, whether written or oral, relating to the matters discussed in this Form 10-Q.

Overview

The following discussion is intended to provide insight into the results of operations and financial condition of United and its subsidiaries and should be read in conjunction with the consolidated financial statements and accompanying notes.

United is a bank holding company registered with the Federal Reserve under the Bank Holding Company Act of 1956 that was incorporated under the laws of the state of Georgia in 1987 and commenced operations in 1988. At March 31, 2008, United had total consolidated assets of \$8.4 billion, total loans of \$6.0 billion, total deposits of \$6.2 billion and stockholders' equity of \$871.5 million.

United activities are primarily conducted by its wholly-owned Georgia banking subsidiary (the "Bank") and Brintech, Inc., a consulting firm providing professional services to the financial services industry. The Bank operations are conducted under a community bank model that operates 27 "Community Banks" with local bank presidents and boards in north Georgia, the Atlanta and Gainesville metropolitan statistical area (the "Atlanta Region"), coastal Georgia, western North Carolina, and east Tennessee.

Net income was \$16.1 million during the first quarter of 2008, a decrease of 17% from the \$19.3 million during the first quarter of 2007. Diluted earnings per common share was \$.34 for the first quarter of 2008, a decrease of 23% from the \$.44 for the first quarter of 2007. Return on tangible equity for the first quarter of 2008 was 13.16%, compared to 17.18% for the first quarter of 2007. Return on assets for the first quarter of 2008 was .78% as compared to 1.11% for the first quarter of 2007.

Earnings decreased primarily as a result of higher credit costs and margin compression due to competitive deposit pricing and higher levels of non-performing assets. Housing starts have slowed significantly, leading to a surplus of lot inventory in our footprint, most notably in the Atlanta Region. This increase in lot inventory negatively affects both the cash flows of our residential construction and land development customers, and the demand for new land development loans.

Nonperforming assets increased to 1.07% of total assets as of March 31, 2008, a significant increase from .20% as of March 31, 2007. This increase is a reflection of the downstream effects of the lot inventory buildup in the Atlanta Region, which itself is indicative of the regional economic slowdown that is occurring in much of the Southeast. To date, the rise in nonperforming assets has been mostly confined to the residential construction portfolio and predominantly within the Atlanta Region.

Fee revenue was flat and operating expenses increased 6% from the first quarter of 2007. Operating expenses increased across most categories primarily due to the acquisition of First Bank of the South ("Gwinnett") in June, 2007, the higher level of legal fees and write downs on foreclosed properties, and the increase in FDIC insurance premiums.

Critical Accounting Policies

The accounting and reporting policies of United are in accordance with accounting principles generally accepted in the United States of America ("GAAP") and conform to general practices within the banking industry. The more critical accounting and reporting policies include United's accounting for the allowance for loan losses and accounting for intangible assets. In particular, United's accounting policies related to allowance for loan losses and intangibles involve the use of estimates and require significant judgment to be made by management. Different assumptions in the application of these policies could result in material changes in United's consolidated financial position or consolidated results of operations. See "Asset Quality and Risk Elements" herein for additional discussion of United's accounting methodologies related to the allowance.

Non-GAAP Performance Measures

The presentation of United's financial results herein include references to operating performance measures, which are measures of performance determined by methods other than GAAP. Management included non-GAAP performance measures because it believes they are useful for evaluating United's operations and performance over periods of time, and uses operating performance measures in managing and evaluating United's business and intends to use them in discussions about United's operations and performance.

Operating performance measures exclude the effect of the special \$15 million fraud-related provision for loan losses recorded in the second quarter of 2007 and an additional \$3 million provision and \$18 million in related charge-offs in the fourth quarter of 2007 involving lot loans near Spruce Pine, North Carolina. Management believes that the circumstances leading to the special provision and subsequent charge-offs were isolated, non-recurring events and do not reflect overall trends in United's performance. Management also believes that these non-GAAP performance measures provide users of United's financial information with a meaningful measure for assessing United's financial results and credit trends and comparing financial results to prior periods.

A reconciliation of operating earnings measures to reported earnings measures using GAAP is presented below:

Table 1 - Operating Earnings to GAAP Earnings Reconciliation
(in thousands, except per share data)

	First Quarter 2008	Fourth Quarter 2007	Third Quarter 2007	Second Quarter 2007
Special provision for fraud related loan losses	\$ -	\$ 3,000	\$ -	\$ 15,000

Common shares outstanding	47,004	46,903	47,542	48,781	43,038	

(1) Excludes effect of special \$15 million fraud related provision for loan losses recorded in the second quarter of 2007 and an additional \$3 million provision and \$18 million of related loan charge-offs recorded in the fourth quarter of 2007.

(2) Net income available to common shareholders, which excludes preferred stock dividends, divided by average realized common equity, which excludes accumulated other comprehensive income (loss).

(3) Excludes effect of acquisition related intangibles and associated amortization.

(4) Annualized.

Results of Operations

Net income was \$16.1 million for the first quarter of 2008, a decrease of \$3.3 million, or 17%, from the same period in 2007. Diluted operating earnings per share was \$.34 for the first quarter of 2008, compared to \$.44 for the first quarter of 2007, a decrease of 23%. Return on tangible equity for the first quarter of 2008 was 13.16%, compared to 17.18% for the first quarter of 2007. Return on assets for the first quarter of 2008 was .78%, compared to 1.11% for the first quarter of 2007.

Net Interest Revenue (Taxable Equivalent)

Net interest revenue (the difference between the interest earned on assets and the interest paid on deposits and borrowed funds) is the single largest component of total revenue. United actively manages this revenue source to provide optimal levels of revenue while balancing interest rate, credit and liquidity risks. Net interest revenue for the three months ended March 31, 2008 was \$66.3 million, up \$1.2 million or 2% from last year. Average loans increased \$555.4 million, or 10% from the first quarter last year. The increase over the first quarter of 2007 was driven primarily by assets acquired in the acquisition of First Bank of the South (“Gwinnett Acquisition”) in the second quarter of 2007. Overall, United had loan growth across all its markets with increases of \$378.0 million in the Atlanta Region (includes \$534 million from the Gwinnett Acquisition offset partially by reductions in construction loans), \$66.9 million in coastal Georgia, \$60.7 million in north Georgia, \$34.5 million in western North Carolina, and \$25.6 million in east Tennessee.

Average interest-earning assets for the first quarter 2008 increased \$892.4 million, or 14% over the same period in 2007. This increase is largely the result of the Gwinnett Acquisition, with additional increases provided by core loan growth and leveraging additional earnings by increasing the securities portfolio. These increases in interest-earning assets were funded by interest-bearing sources, resulting in increases in average interest-bearing liabilities of \$930.6 million as compared to the same period in 2007.

The banking industry uses two ratios to measure relative profitability of net interest revenue. The net interest spread measures the difference between the average yield on interest-earning assets and the average rate paid on interest-bearing liabilities. The interest rate spread eliminates the effect of non-interest-bearing deposits and gives a direct perspective on the effect of market interest rate movements. The net interest margin is defined as net interest revenue as a percent of average total interest-earning assets and takes into account the positive effect of investing non-interest-bearing deposits and capital.

For the three months ended March 31, 2008 and 2007, the net interest spread was 3.15% and 3.43%, respectively, while the net interest margin was 3.55% and 3.99%, respectively. The compression of the spread and margin was primarily due to the 300 basis point lowering of the prime rate initiated by actions of the Federal Reserve beginning in September 2007 combined with increased competition for deposits which hampered the rate at which deposit prices could be lowered to offset the effect of the decline in the prime interest rate on the mostly prime-based loan portfolio. Also contributing to the lower spread and net interest margin was the higher level of non-performing assets and a shift in earning-asset mix resulting from growth in the securities portfolio.

At March 31, 2008 and 2007, United had receive-fixed swap contracts with a total notional value of \$680 million and \$505 million respectively, which are used to reduce United’s exposure to changes in interest rates that were accounted for as cash flow hedges of prime-based loans. United also had receive-fixed swap contracts with a total notional amount of \$105 million and \$45 million that are being accounted for as fair value hedges of brokered time deposits and fixed rate Federal Home Loan Bank advances. In addition to the swap contracts, United has purchased interest rate floors having a total notional amount of \$500 million for which it paid premiums totaling \$13 million that are being accounted for as cash flow hedges of daily repricing, prime-based loans. The use of swap contracts is more fully explained in the Interest Rate Sensitivity Management section of this report beginning on page 24.

The average yield on interest-earning assets for the first quarter of 2008 was 6.92%, compared with 7.92% in the first quarter of 2007. Loan yields were down 118 basis points compared with the first quarter of 2007, primarily due to the 300 basis point decrease in the prime rate since September 2007.

The average cost of interest-bearing liabilities for the first quarter was 3.77%, compared to 4.49% from the same period of 2007. Even as the cost of borrowed funds decreased 182 basis points compared with the first quarter of 2007, the cost of interest-bearing deposits only decreased 58 basis points in the same timeframe. Deposit pricing decreased less than borrowed funds because while index interest rates were dropping, increasing competition for deposits kept deposit pricing at higher levels in relation to the cost to borrow funds.

The following table shows the relationship between interest revenue and expense, and the average amounts of interest-earning assets and interest-bearing liabilities for the three months ended March 31, 2008 and 2007.

Table 3 - Average Consolidated Balance Sheets and Net Interest Analysis

Net interest revenue		\$ 66,287			\$ 65,105	
Net interest-rate spread			<u>3.15%</u>			<u>3.43%</u>
Net interest margin ⁽⁴⁾			<u>3.55%</u>			<u>3.99%</u>

⁽¹⁾ Interest revenue on tax-exempt securities and loans has been increased to reflect comparable interest on taxable securities and loans. The rate used was 39%, reflecting the statutory federal income tax rate and the federal tax adjusted state income tax rate.

⁽²⁾ Included in the average balance of loans outstanding are loans where the accrual of interest has been discontinued.

⁽³⁾ Securities available for sale are shown at amortized cost. Pretax unrealized gains of \$15.9 million in 2008 and pretax unrealized losses of \$10.0 million in 2007 are included in other assets for purposes of this presentation.

⁽⁴⁾ Net interest margin is taxable equivalent net-interest revenue divided by average interest-earning assets.

The following table shows the relative effect on net interest revenue for changes in the average outstanding amounts (volume) of interest-earning assets and interest-bearing liabilities and the rates earned and paid on such assets and liabilities (rate). Variances resulting from a combination of changes in rate and volume are allocated in proportion to the absolute dollar amounts of the change in each category.

Table 4 - Change in Interest Revenue and Expense on a Taxable Equivalent Basis
(in thousands)

	Three Months Ended March 31, 2008		
	Compared to 2007		
	Increase (decrease)		
	Due to Changes in		
	Volume	Rate	Total
Interest-earning assets:

Increase in net interest revenue	\$ 7,807	\$ (6,625)	\$ 1,182

Provision for Loan Losses

The provision for loan losses was \$7.5 million for the first quarter of 2008, compared with \$3.7 million for the same period in 2007. Net loan charge-offs as an annualized percentage of average outstanding loans for the three months ended March 31, 2008 was .48%, compared to .11% for the first quarter of 2007. As vacant developed lot inventories have increased within our footprint, notably in the Atlanta Region, it has made it difficult for some developers to obtain cash flows from selling lots and houses that were needed to service their debt. This is part of the deteriorating of the residential construction and housing markets that has affected the Southeast and resulted in higher credit losses and an increase in non-performing assets.

The provision for loan losses is based on management's evaluation of losses inherent in the loan portfolio and corresponding analysis of the allowance for loan losses at quarter-end. The amount of provision taken in the first quarter is the amount required such that the total allowance for loan losses reflects, in the estimation of management, the appropriate balance and is adequate to cover inherent losses in the loan portfolio. Additional discussion on loan quality and the allowance for loan losses is included in the Asset Quality section of this report.

Fee Revenue

Fee revenue for the first quarter 2008 was \$14.2 million, a decrease of \$185,000, or 1%, from 2007. Fee revenue accounted for 19% of taxable equivalent total revenue for the first quarter of 2008 and 2007. United continues to focus on increasing fee revenue through new products and services. The following table presents the components of fee revenue for the first quarter of 2008 and 2007.

Table 5 - Fee Revenue
For the Three Months Ended March 31,
(dollars in thousands)

	Three Months Ended		Change
	March 31,		
	2008	2007	
Service charges and fees	\$ 7,813	\$ 7,253	8%
Mortgage loan and other related fees	1,963	2,223	(12)
Consulting fees	1,807	1,747	3
Brokerage fees	1,093	944	16
Securities gains, net	-	207	
Other	1,521	2,008	(24)
Total	<u>\$ 14,197</u>	<u>\$ 14,382</u>	(1)

Service charges and fees for the first quarter increased \$560,000, or 8%, from 2007. This increase was primarily due to growth in transactions and new accounts added through an acquisition, de novo growth and core deposit programs and higher ATM and debit card usage fees.

Mortgage loans and related fees for the first quarter decreased \$260,000, or 12%, from 2007. This decrease was due to decreased demand for new mortgage loans within our footprint. Substantially all originated residential mortgages were sold into the secondary market, including the right to service these loans.

Brokerage fees increased \$149,000, or 16%, compared to 2007. This increase was primarily due to strong retention efforts and new customer outreach.

Other fee revenue decreased \$487,000, or 24%, compared to 2007. The decrease is primarily due to one-time gains in 2007, for a \$225,000 recovery related to overpaid interest on brokered deposits and a \$207,000 gain from the sale of a potential office site in Tennessee.

Operating Expenses

For the three months ended March 31, 2008, total operating expenses were \$47.5 million, an increase of 6% compared with \$44.8 million for the same period in 2007. The following table presents the components of operating expenses for the three months ended March 31, 2008 and 2007.

Table 6 - Operating Expenses
For the Three Months Ended March 31,
(dollars in thousands)

	Three Months Ended March 31,		Change
	2008	2007	
Salaries and employee benefits	\$ 28,754	\$ 28,317	2%
Communications and equipment	3,832	3,812	1
Occupancy	3,716	3,191	16
Advertising and public relations	1,351	2,016	(33)
Postage, printing and supplies	1,592	1,660	(4)
Professional fees	1,921	1,479	30
Amortization of intangibles	767	564	36
Other	5,596	3,802	47
Total	<u>\$ 47,529</u>	<u>\$ 44,841</u>	6

Salaries and employee benefits for the first quarter 2008 totaled \$28.8 million, an increase of \$437,000, or 2%, over the same period in 2007. This increase was due to staff expansion as a result of the acquisition of First Bank of the South, but the increase was minimized by decreases in bonus and profit sharing expense in 2008. At March 31, 2008, total staff was 2,008, an increase of 58 employees from the first quarter 2007 which included 73 staff added by the acquisition.

Communications and equipment expense for the first quarter 2008 was essentially flat from the same period in 2007. This represents the effectiveness of company-wide discipline in holding down expenses.

Occupancy expense increased \$525,000, or 16%, from the same period in 2007. This increase reflects the additional office space obtained in the acquisition, and de novo expansion.

Advertising and public relations expense for the first quarter 2008 decreased \$665,000, or 33%, from the same period in 2007 due to efforts to reduce discretionary expenses.

Professional fees for the first quarter 2008 increased \$442,000, or 30%, over the same period in 2007. This increase is primarily the result of increased legal fees associated with the higher level of foreclosed properties.

Other expense increased \$1.8 million, or 47%, from 2007. The increase was due to the increase in FDIC insurance premiums and additional writedowns on foreclosed properties.

The efficiency ratio measures total operating expenses as a percentage of total revenue, excluding the provision for loan losses and net securities gains or losses. United's efficiency ratio for the first quarter was 59.05%, compared to 56.56% for the first quarter of 2007. The increase is primarily the result of flat net interest revenue and fee revenue, combined with a small increase in operating expenses.

Income Taxes

Income tax expense was \$8.8 million for the first quarter, as compared with \$11.1 million for the first quarter of 2007, representing a 35.5% and a 36.5% effective tax rate, respectively. The effective tax rates were lower than the statutory tax rates primarily due to interest revenue on certain investment securities and loans that are exempt from income taxes, tax exempt fee revenue and tax credits received on affordable housing investments. Additional information regarding income taxes can be found in Note 14 to the consolidated financial statements filed with United's 2007 Form 10-K. The decrease in the effective tax rate from 2007 to 2008 is due to the lower level of pre-tax income without a proportionate decline in tax-exempt income and tax credits.

Balance Sheet Review

Total assets at March 31, 2008 were \$8.4 billion, compared with \$7.2 billion at March 31, 2007. Average total assets for the first quarter 2008 were \$8.3 billion, up \$1.2 billion from average assets for the first quarter of 2007. A significant portion of the growth was the result of the Gwinnett Acquisition on June 1, 2007 which added total assets of \$809 million, including intangible assets.

Loans

The following table presents a summary of the loan portfolio.

Table 7 - Loans Outstanding
(dollars in thousands)

	<u>March 31,</u> <u>2008</u>	<u>December 31,</u> <u>2007</u>	<u>March 31,</u> <u>2007</u>
By Loan Type			
Commercial (secured by real estate)	\$ 1,526,282	\$ 1,475,930	\$ 1,227,075
Commercial construction	548,063	527,123	462,260
Commercial (commercial and industrial)	437,220	417,715	315,246
Total commercial	<u>2,511,565</u>	<u>2,420,768</u>	<u>2,004,581</u>
Residential construction	1,791,338	1,829,506	1,874,000
Residential mortgage	1,490,951	1,501,916	1,353,444
Installment	173,985	177,073	170,173
Total loans	<u>\$ 5,967,839</u>	<u>\$ 5,929,263</u>	<u>\$ 5,402,198</u>
As a percentage of total loans:			
Commercial (secured by real estate)	26%	25%	23%
Commercial construction	9	9	8
Commercial (commercial and industrial)	7	7	6
Total commercial	<u>42</u>	<u>41</u>	<u>37</u>
Residential construction	30	31	35
Residential mortgage	25	25	25
Installment	3	3	3
Total	<u>100%</u>	<u>100%</u>	<u>100%</u>
By Geographic Location			
Atlanta Region	\$ 2,392,790	\$ 2,401,649	\$ 2,014,813
North Georgia	2,070,551	2,060,224	2,009,852
North Carolina	816,389	805,999	781,939
Coastal Georgia	439,116	415,622	372,217
Tennessee	248,993	245,769	223,377
Total loans	<u>\$ 5,967,839</u>	<u>\$ 5,929,263</u>	<u>\$ 5,402,198</u>

Substantially all of United's loans are to customers located in the immediate market areas of the Community Banks in Georgia, North Carolina, and Tennessee. At March 31, 2008, total loans were \$6.0 billion, an increase of \$565.6 million or 10%, from March 31, 2007. The rate of loan growth began to decline in the first quarter of 2007 and continued throughout 2007 and into 2008. The slowdown in loan growth was due to credit deterioration in the residential construction and housing markets that resulted in part from an oversupply of lot inventory within United's markets, which slowed construction activities and acquisition and development projects.

Asset Quality and Risk Elements

United manages asset quality and controls credit risk through review and oversight of the loan portfolio as well as adherence to policies designed to promote sound underwriting and loan monitoring practices. United's credit administration function is responsible for monitoring asset quality, establishing credit policies and procedures and enforcing the consistent application of these policies and procedures at all of the Community Banks. Additional information on the credit administration function is included in Item 1 under the heading *Loan Review and Non-performing Assets* in United's Annual Report on Form 10-K.

The provision for loan losses charged to earnings was based upon management's judgment of the amount necessary to maintain the allowance at a level appropriate to absorb losses inherent in the loan portfolio at quarter-end. The amount each period is dependent upon many factors, including growth and changes in the composition of the loan portfolio, net charge-offs, delinquencies, management's assessment of loan portfolio quality, the value of collateral, and other economic factors and trends. The evaluation of these factors is performed quarterly by management through an analysis of the appropriateness of the allowance for loan losses.

Reviews of non-performing loans, past due loans and larger credits, designed to identify potential charges to the allowance for loan losses, as well as determine the adequacy of the allowance, are conducted on a regular basis during the quarter. These reviews are performed by the responsible lending officers with management, as well as a separate loan review department, and consider such factors as the financial strength of borrowers, the value of the applicable collateral, past loan loss experience, anticipated loan losses, growth in the loan portfolio, prevailing economic conditions and other factors. United also uses external loan review to supplement the activities of the loan review department and to ensure the independence of the loan review process.

The following table presents a summary of the changes in the allowance for loan losses for the three-month periods ended March 31, 2008 and 2007.

Table 8 - Summary of Loan Loss Experience
(dollars in thousands)

	Three Months Ended March 31,	
	2008	2007
Balance beginning of period	\$ 89,423	\$ 66,566
Loans charged-off	(7,502)	(1,966)
Recoveries	427	504
Net charge-offs	(7,075)	(1,462)
Provision for loan losses	7,500	3,700
Balance end of period	<u>\$ 89,848</u>	<u>\$ 68,804</u>
Total loans:		
At period end	\$ 5,967,839	\$ 5,402,198
Average	5,958,296	5,402,860
As a percentage of average loans (annualized):		
Net charge-offs	.48%	.11%
Provision for loan losses	.50	.27
Allowance as a percentage of period end loans	1.51	1.27
Allowance as a percentage of period end non-performing loans	133	559

Management believes that the allowance for loan losses at March 31, 2008 reflects the losses inherent in the loan portfolio. This assessment involves uncertainty and judgment; therefore, the adequacy of the allowance for loan losses cannot be determined with precision and may be subject to change in future periods. In addition, bank regulatory authorities, as part of their periodic examination of the Bank, may require adjustments to the provision for loan losses in future periods if, in their opinion, the results of their review warrant such additions.

Non-performing Assets

The table below summarizes non-performing assets.

Table 9 - Non-Performing Assets
(dollars in thousands)

	March 31, 2008	December 31, 2007	March 31, 2007
Non-accrual loans	\$ 67,728	\$ 28,219	\$ 12,319
Loans past due 90 days or more and still accruing	-	-	-
Total non-performing loans	67,728	28,219	12,319
Other real estate owned (OREO)	22,136	18,039	1,971
Total non-performing assets	<u>\$ 89,864</u>	<u>\$ 46,258</u>	<u>\$ 14,290</u>
Non-performing loans as a percentage of total loans	1.13%	.48%	.23%
Non-performing assets as a percentage of loans and OREO	1.50	.78	.26
Non-performing assets as a percentage of total assets	1.07	.56	.20

Non-performing loans totaled \$67.7 million, compared with \$28.2 million at December 31, 2007 and \$12.3 million at March 31, 2007. The ratio of non-performing loans to total loans increased .90% from March 31, 2007 and .65% from December 31, 2007 reflecting deterioration in United's residential construction portfolio resulting from the deteriorating housing market. Non-performing assets, which include non-performing loans and foreclosed real estate, totaled \$89.9 million at December 31, 2007, compared to \$46.3 million at December 31, 2007 and \$14.3 million at March 31, 2007.

United's policy is to classify loans in non-accrual status when, in the opinion of management, the principal and interest on a loan is not likely to be repaid in accordance with the loan terms or when the loan becomes 90 days past due and is not well secured and in the process of collection. When a loan is classified on non-accrual status, interest previously accrued but not collect is reversed against current interest revenue. Payments received on a non-accrual loan are applied to reduce outstanding principal.

At March 31, 2008 and 2007, there were \$64.5 million and \$2.5 million, respectively, of loans classified as impaired under the definition outlined in SFAS No. 114 *Accounting By Creditors For Impairment of a Loan*. Specific reserves allocated to these impaired loans totaled \$12.0 million and \$490,000 at March 31, 2008 and 2007, respectively. The average recorded investments in impaired loans for the quarters ended March 31, 2008 and 2007 were \$38.8 million and \$3.3 million, respectively. Interest revenue recognized on loans while they were impaired for the first three months of 2008 was \$36,000 compared with \$18,000 for the same period in 2007.

Investment Securities

The composition of the investment securities portfolio reflects United's investment strategy of maintaining an appropriate level of liquidity while providing a relatively stable source of revenue. The investment securities portfolio also provides a balance to interest rate risk and credit risk in other categories of the balance sheet while providing a vehicle for the investment of available funds, furnishing liquidity, and supplying securities to pledge as required collateral for certain deposits.

Total investment securities available for sale at quarter-end increased \$358.0 million from a year ago. The investment portfolio is used as a supplemental tool to stabilize interest rate sensitivity and increase net interest revenue. At March 31, 2008, December 31, 2007, and March 31, 2007, the securities portfolio represented approximately 18.0%, 16.5% and 16.0% of the balance sheet, respectively.

The investment securities portfolio primarily consists of U.S. Government agency securities, U.S. Government sponsored agency mortgage-backed securities, non-agency mortgage-backed securities, and municipal securities. Mortgage-backed securities rely on the underlying pools of mortgage loans to provide a cash flow of principal and interest. The actual maturities of these securities will differ from contractual maturities because loans underlying the securities can prepay. Decreases in interest rates will generally cause an acceleration of prepayment levels. In a declining interest rate environment, United may not be able to reinvest the proceeds from these prepayments in assets that have comparable yields. In a rising rate environment, the opposite occurs. Prepayments tend to slow and the weighted average life extends. This is referred to as extension risk which can lead to lower levels of liquidity due to the delay of cash receipts and can result in the holding of a below market yielding asset for a longer time period.

Deposits

Total deposits as of March 31, 2008 were \$6.2 billion, an increase of \$334 million, or 6%, from March 31, 2007. Total non-interest-bearing demand deposit accounts of \$690 million increased \$14 million or 2%, and interest-bearing demand and savings accounts of \$2.1 billion increased \$283 million, or 15%, due primarily to the acquisition.

Total time deposits, excluding brokered deposits, as of March 31, 2008 were \$2.9 billion, a decrease of \$75 million, or 3%, from March 31, 2007. Time deposits less than \$100,000 totaled \$1.5 billion, compared with \$1.6 billion a year ago, which is a decrease of 5%. This reflects a strategic decision by United to allow higher-priced time deposits where there was no other customer relationship to lapse. Time deposits of \$100,000 and greater totaled \$1.4 billion as of March 31, 2008 and 2007, respectively. United also takes advantage of "brokered" time deposits, issued in certificates of less than \$100,000 as an alternate source of cost-effective funding. Brokered time deposits as of March 31, 2008 were \$431.5 million, compared with \$319.1 million at March 31, 2007, an increase of 35%.

Wholesale Funding

At March 31, 2008, the Bank was a shareholder in a Federal Home Loan Bank ("FHLB"). Through this affiliation, FHLB secured advances totaled \$615.3 million and \$464.1 million as of March 31, 2008 and 2007, respectively. United anticipates continued use of this short and long-term source of funds. FHLB advances outstanding at March 31, 2008 had both fixed and floating interest rates up to 5.51%. Additional information regarding FHLB advances, including scheduled maturities, is provided in Note 10 to the consolidated financial statements included in United's 2007 Form 10-K.

At March 31, 2008, United had \$532.9 million in Federal funds purchased, repurchase agreements, and other short-term borrowings outstanding, compared to \$77.4 million outstanding at March 31, 2007. United takes advantage of these additional sources of liquidity when rates are favorable compared to other forms of short-term borrowings, such as FHLB advances and brokered deposits.

Interest Rate Sensitivity Management

The absolute level and volatility of interest rates can have a significant impact on United's profitability. The objective of interest rate risk management is to identify and manage the sensitivity of net interest revenue to changing interest rates, in order to achieve United's overall financial goals. Based on economic conditions, asset quality and various other considerations, management establishes tolerance ranges for interest rate sensitivity and manages within these ranges.

Net interest revenue is influenced by changes in the level of interest rates. United manages its exposure to fluctuations in interest rates through policies established by the Asset/Liability Management Committee ("ALCO"). ALCO meets regularly and has responsibility for approving asset/liability management policies, formulating and implementing strategies to improve balance sheet positioning and/or earnings, and reviewing United's interest rate sensitivity.

One of the tools management utilizes to estimate the sensitivity of net interest revenue to changes in interest rates is an interest rate simulation model. Such estimates are based upon a number of assumptions for various scenarios, including the level of balance sheet growth, deposit repricing characteristics and the rate of prepayments. The simulation model measures the potential change in net interest revenue over a twelve-month period under various interest rate scenarios. United's baseline scenario assumes rates remain flat ("flat rate scenario") over the next twelve months and is the scenario that all others are compared to in order to measure the change in net interest revenue. United runs ramp scenarios that assume gradual increases and decreases of 200 basis points each over the next twelve months. United's policy for net interest revenue simulation is limited to a change from the flat rate scenario of less than 10% for the up or down 200 basis point ramp scenarios over twelve months. At March 31, 2008, United's simulation model indicated that a 200 basis point increase in rates over the next twelve months would cause an approximate 1.9% increase in net interest revenue and a 200 basis point decrease in rates over the next twelve months would cause an approximate 1.4% decrease in net interest revenue.

In order to manage its interest rate sensitivity, United uses off-balance sheet contracts that are considered derivative financial instruments. Derivative financial instruments can be a cost and capital effective means of modifying the repricing characteristics of on-balance sheet assets and liabilities. At March 31, 2008, United was a party to interest rate swap contracts under which it pays a variable rate and receives a fixed rate, and interest rate floor contracts in which United pays a premium to a counterparty who agrees to pay United the difference between a variable rate and a strike rate if the variable rate falls below the strike rate.

The following table presents the interest rate swap contracts outstanding at March 31, 2008.

Table 10 - Derivative Financial Instruments

As of March 31, 2008

(dollars in thousands)

Type/Maturity	Notional Amount	Rate Received / Floor Rate	Rate Paid	Fair Value ⁽⁸⁾
Fair Value Hedges:				
LIBOR Swaps (Brokered CDs)				
June 18, 2008 ⁽¹⁾	\$ 20,000	5.15%	2.78%	\$ 118
September 29, 2008 ⁽²⁾	10,000	5.25	2.70	140
November 3, 2008 ⁽³⁾	10,000	5.00	2.44	171
April 17, 2013 ⁽⁴⁾	15,000	5.20	2.71	17
Total:	55,000	5.15	2.68	446
LIBOR Swaps (FHLB Advances)				
January 5, 2009 ⁽⁴⁾	25,000	5.06	2.60	547
March 2, 2009 ⁽⁵⁾	25,000	4.90	3.14	652
Total:	50,000	4.98	2.87	1,199
Total Fair Value Hedges	105,000	5.07	2.77	1,645
Cash Flow Hedges:				
Prime Swaps (Prime Loans) ⁽⁶⁾				
April 17, 2008	50,000	8.25	5.25	64
April 17, 2008	50,000	8.25	5.25	64
May 1, 2008	50,000	8.33	5.25	126
May 1, 2008	50,000	8.34	5.25	126
August 4, 2008	50,000	8.32	5.25	515
November 4, 2008	100,000	8.32	5.25	1,856
February 1, 2009	25,000	8.31	5.25	666
May 4, 2009	30,000	8.29	5.25	1,054
June 11, 2010	25,000	8.26	5.25	1,657
June 13, 2011	25,000	6.72	5.25	864
December 12, 2011	25,000	6.86	5.25	749
March 12, 2012	50,000	6.87	5.25	2,108
March 27, 2012	50,000	6.76	5.25	1,896
March 27, 2012	50,000	6.72	5.25	1,807
March 31, 2013	50,000	6.26	5.25	693
Total:	680,000	7.70	5.25	14,245
Prime Floors (Prime Loans) ⁽⁷⁾				
February 1, 2009	25,000	8.75		821
May 1, 2009	25,000	8.75		1,054
August 1, 2009	75,000	8.75		3,856
November 1, 2009	75,000	8.75		4,491
February 4, 2010	100,000	8.75		6,766
May 4, 2010	100,000	8.75		7,457
August 1, 2010	50,000	8.75		4,061
August 4, 2010	50,000	8.75		4,058
Total:	500,000			32,564
Total Cash Flow Hedges:	1,180,000			46,809
Total Derivative Contracts	\$ 1,285,000			\$ 48,454

(1) Rate Paid equals 1-Month LIBOR minus .2725

(2) Rate Paid equals 1-Month LIBOR minus .0075

(3) Rate Paid equals 1-Month LIBOR minus .3435

(4) Rate Paid equals 1-Month LIBOR minus .1101

(5) Rate Paid equals 1-Month LIBOR minus .1280

(6) Rate Paid equals Prime rate as of March 31, 2008

(7) Floor contracts receive cash payments equal to the floor rate less the prime rate.

(8) Excludes accrued interest

United's derivative financial instruments are classified as either cash flow or fair value hedges. The change in fair value of cash flow hedges is recognized in other comprehensive income. Fair value hedges recognize currently in earnings both the effect of the change in the fair value of the derivative financial instrument and the offsetting effect of the change in fair value of the hedged asset or liability associated with the particular risk of that asset or liability being hedged. At March 31, 2008, United had interest rate swap contracts with a total notional amount of \$680 million that were designated as cash flow hedges of prime-based loans. United had interest rate floor contracts with a total notional of \$500 million that were also designated as cash flow hedges of prime-based loans. United also had receive fixed, pay LIBOR swap contracts with a total notional of \$105 million that were accounted for as fair value hedges of brokered deposits and fixed-rate FHLB advances.

United's policy requires all derivative financial instruments be used only for asset/liability management through the hedging of specific transactions or positions, and not for trading or speculative purposes. Management believes that the risk associated with using derivative financial instruments to mitigate interest rate risk sensitivity is minimal and should not have any material unintended effect on the financial condition or results of operations. In order to mitigate potential credit risk, from time to time United may require the counterparties to derivative contracts to pledge securities as collateral to cover the net exposure.

Liquidity Management

The objective of liquidity management is to ensure that sufficient funding is available, at reasonable cost, to meet the ongoing operational cash needs and to take advantage of revenue producing opportunities as they arise. While the desired level of liquidity will vary depending upon a variety of factors, it is the primary goal of United to maintain a sufficient level of liquidity in all expected economic environments. Liquidity is defined as the ability to convert assets into cash or cash equivalents without significant loss and to raise additional funds by increasing liabilities. Liquidity management involves maintaining United's ability to meet the daily cash flow requirements of the Banks' customers, both depositors and borrowers.

The primary objectives of asset/liability management are to provide for adequate liquidity in order to meet the needs of customers and to maintain an optimal balance between interest-sensitive assets and interest-sensitive liabilities; so that United can also meet the investment requirements of its shareholders as market interest rates change. Daily monitoring of the sources and uses of funds is necessary to maintain a position that meets both requirements.

The asset portion of the balance sheet provides liquidity primarily through loan principal repayments and the maturities and sales of securities. Mortgage loans held for sale totaled \$28.5 million at March 31, 2008, and typically turn over every 45 days as the closed loans are sold to investors in the secondary market.

The liability section of the balance sheet provides liquidity through interest-bearing and noninterest-bearing deposit accounts. Federal funds purchased, FHLB advances and securities sold under agreements to repurchase are additional sources of liquidity and represent United's incremental borrowing capacity. These sources of liquidity are generally short-term in nature and are used as necessary to fund asset growth and meet other short-term liquidity needs.

United has available a line of credit and a joint credit agreement at its holding company with other financial institutions totaling \$80 million. At March 31, 2008, United had no balances outstanding on those lines. United had sufficient qualifying collateral to increase FHLB advances by \$596 million at March 31, 2008. United's internal policy limits brokered deposits to 25% of total non-brokered deposits. At March 31, 2008, United had the capacity to increase brokered deposits by \$1.0 billion and still remain within this limit. Also, United had sufficient qualifying assets pledged to the Federal Reserve under the Term Auction Facility to increase short-term borrowings by \$86 million.

As disclosed in United's consolidated statement of cash flows, net cash provided by operating activities was \$31.8 million for the three months ended March 31, 2008. The major contributors in this category were net income of \$16.1 million, plus non-cash expenses for depreciation, amortization and accretion of \$3.6 million, provision for loan losses of \$7.5 million, stock based compensation of \$975,000, a decrease in other assets and accrued interest receivable of \$8.9 million, offset by a decrease of accrued expenses and other liabilities of \$4.8 million. Net cash used by investing activities of \$154.7 million consisted primarily of a net increase in loans totaling \$63.1 million, purchases of premises and equipment of \$3.8 million, and \$296.2 million used to purchase investment securities, partially offset by proceeds from sales of securities of \$25.0 million, maturities and calls of investment securities of \$175.0 million, and sales of other real estate of \$8.2 million. Net cash provided by financing activities of \$86.3 million consisted primarily of a net increase in deposits of \$99.9 million and a net increase in FHLB advances of \$95.0 million, offset by a net decrease of \$105.6 million in federal funds purchased, repurchase agreements, and other short-term borrowings and cash dividends paid of \$4.2 million. In the opinion of management, the liquidity position at March 31, 2008 is sufficient to meet its expected cash flow requirements.

Capital Resources and Dividends

Shareholders' equity at March 31, 2008 was \$871.5 million, an increase of \$233 million, or 36%, from March 31, 2007. Accumulated other comprehensive income (loss) is not included in the calculation of regulatory capital adequacy ratios. Excluding the change in the accumulated other comprehensive income (loss), shareholders' equity increased \$193 million, or 30%, from March 31, 2007. Dividends of \$4.2 million, or \$.09 per share, were declared on common stock during the first quarter of 2008, an increase of 9% from the amount declared in the same period in 2007 due to an increase in the number of outstanding shares. The dividend payout ratio was 26% for the first quarter of 2008, compared to 20% for the first quarter of 2007. Although, United retains a portion of its earnings in order to provide a cost effective source of capital for continued growth and expansion, United recognizes that cash dividends are an important component of shareholder value, and therefore, provides for cash dividends when earnings and capital levels permit.

United's Board of Directors has authorized the repurchase of United's outstanding common stock for the general corporate purposes. At March 31, 2008, 1,000,000 shares remained available to be repurchased under the current 3,000,000 share authorization through December 31, 2008. During the first quarter of 2008, optionees delivered 5,179 shares to exercise stock options.

United's common stock trades on the Nasdaq Global Select Market under the symbol "UCBI". Below is a quarterly schedule of high, low and closing stock prices and average daily volume for 2008 and 2007.

Table 11 - Stock Price Information

	2008				2007			
	High	Low	Close	Avg Daily Volume	High	Low	Close	Avg Daily Volume
First quarter	\$ 20.80	\$ 13.38	\$ 16.98	441,659	\$ 34.98	\$ 30.81	\$ 32.79	232,269
Second quarter					33.03	25.80	25.89	266,682
Third quarter					27.50	22.16	24.52	346,596
Fourth quarter					25.73	15.13	15.80	421,910

The following table presents the quarterly cash dividends declared in 2008 and 2007 and the respective payout ratios as a percentage of basic earnings per share, which excludes merger-related charges.

Table 12 - Dividend Payout Information

	2008		2007	
	Dividend	Payout %	Dividend	Payout %
First quarter	\$.09	26	\$.09	20
Second quarter			.09	19*
Third quarter			.09	19
Fourth quarter			.09	69*

* Based on basic operating earnings per share which excludes the effect of the \$15 million special fraud-related provision for loan losses in the second quarter of 2007 and \$3 million in the fourth quarter of 2007. Including the special provisions, the dividend payout ratio was 35% and 100%, respectively, for the second and fourth quarters of 2007.

The Board of Governors of the Federal Reserve System has issued guidelines for the implementation of risk-based capital requirements by U.S. banks and bank holding companies. These risk-based capital guidelines take into consideration risk factors, as defined by regulators, associated with various categories of assets, both on and off-balance sheet. Under the guidelines, capital strength is measured in two tiers that are used in conjunction with risk-adjusted assets to determine the risk based capital ratios. The guidelines require an 8% total risk-based capital ratio, of which 4% must be Tier I capital. To be considered well capitalized under the guidelines, a 10% total risk-based capital ratio is required, of which 6% must be Tier I capital.

A minimum leverage ratio is required in addition to the risk-based capital standards and is defined as Tier I capital divided by average assets adjusted for goodwill and deposit-based intangibles. Although a minimum leverage ratio of 3% is required for the highest-rated bank holding companies which are not undertaking significant expansion programs, the Federal Reserve Board requires a bank holding company to maintain a leverage ratio greater than 3% if it is experiencing or anticipating significant growth or is operating with less than well-diversified risks in the opinion of the Federal Reserve Board. The Federal Reserve Board uses the leverage and risk-based capital ratios to assess capital adequacy of banks and bank holding companies.

The following table shows United's capital ratios, as calculated under regulatory guidelines, at March 31, 2008 and 2007.

Table 13 - Capital Ratios
(dollars in thousands)

	2008		2007	
	Actual Amount	Regulatory Minimum	Actual Amount	Regulatory Minimum
Tier I Leverage:				
Amount	\$ 555,126	\$ 239,641	\$ 523,749	\$ 207,863
Ratio	6.95%	3.00%	7.56%	3.00%
Tier I Risk-Based:				
Amount	\$ 555,126	\$ 252,806	\$ 523,749	\$ 224,610
Ratio	8.78%	4.00%	9.33%	4.00%
Total Risk-Based:				
Amount	\$ 694,462	\$ 505,613	\$ 659,053	\$ 449,220
Ratio	10.99%	8.00%	11.74%	8.00%

United's Tier I capital excludes other comprehensive income, and consists of stockholders' equity and qualifying capital securities less goodwill and deposit-based intangibles. Tier II capital components include supplemental capital items such as a qualifying allowance for loan losses and qualifying subordinated debt. Tier I capital plus Tier II capital components is referred to as Total Risk-Based capital.

The capital ratios of United and the Banks currently exceed the minimum ratios as defined by federal regulators. United monitors these ratios to ensure that United and the Banks remain above regulatory minimum guidelines.

Effect of Inflation and Changing Prices

A bank's asset and liability structure is substantially different from that of an industrial firm in that primarily all assets and liabilities of a bank are monetary in nature with relatively little investment in fixed assets or inventories. Inflation has an important impact on the growth of total assets and the resulting need to increase equity capital at higher than normal rates in order to maintain an appropriate equity to assets ratio.

United's management believes the impact of inflation on financial results depends on United's ability to react to changes in interest rates and, by such reaction, reduce the inflationary impact on performance. United has an asset/liability management program to manage interest rate sensitivity. In addition, periodic reviews of banking services and products are conducted to adjust pricing in view of current and expected costs.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

There have been no material changes in United's quantitative and qualitative disclosures about market risk as of March 31, 2008 from that presented in the Annual Report on Form 10-K for the year ended December 31, 2007. The interest rate sensitivity position at March 31, 2008 is included in management's discussion and analysis on page 24 of this report.

Item 4. Controls and Procedures

United's management, including the Chief Executive Officer and Chief Financial Officer, supervised and participated in an evaluation of the company's disclosure controls and procedures as of March 31, 2008. Based on, and as of the date of, that evaluation, United's Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective in accumulating and communicating information to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosures of that information under the Securities and Exchange Commission's rules and forms and that the disclosure controls and procedures are designed to ensure that the information required to be disclosed in reports that are filed or submitted by United under the Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no significant changes in the internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Part II. Other Information

Item 1. Legal Proceedings

In the ordinary course of operations, United and the Banks are defendants in various legal proceedings. In the opinion of management, there is no pending or threatened proceeding in which an adverse decision could result in a material adverse change in the consolidated financial condition or results of operations of United.

Item 1A. Risk Factors

There have been no material changes from the risk factors previously disclosed in United's Form 10-K for the year ended December 31, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds – None

Item 3. Defaults upon Senior Securities – None

Item 4. Submission of Matters to a Vote of Security Holders – None

Item 5. Other Information – None

Item 6. Exhibits

- 3.1 Restated Articles of Incorporation of United Community Banks, Inc., (incorporated herein by reference to Exhibit 3.1 to United Community Banks, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 30, 2001, File No. 0-21656, filed with the Commission on August 14, 2001).
- 3.2 Amendment to the Restated Articles of Incorporation of United Community Banks, Inc. (incorporated herein by reference to Exhibit 3.3 to United Community Banks, Inc.'s Registration Statement on Form S-4, File No. 333-118893, filed with the Commission on September 9, 2004).
- 3.3 Amended and Restated Bylaws of United Community Banks, Inc., dated September 12, 1997 (incorporated herein by reference to Exhibit 3.1 to United Community Banks, Inc.'s Annual Report on Form 10-K, for the year ended December 31, 1997, File No. 0-21656, filed with the Commission on March 27, 1998).
- 4.1 See Exhibits 3.1, 3.2 and 3.3 for provisions of the Restated Articles of Incorporation, as amended, and Amended and Restated Bylaws, which define the rights of the Shareholders.
- 31.1 Certification by Jimmy C. Tallent, President and Chief Executive Officer of United Community Banks, Inc., as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification by Rex S. Schuette, Executive Vice President and Chief Financial Officer of United Community Banks, Inc., as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32 Certification Pursuant to 18 U.S.C. Section 1350, as Adopted Pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this Report to be signed on its behalf by the undersigned thereunto duly authorized.

Exhibit 31.1

I, Jimmy C. Tallent, President and Chief Executive Officer of United Community Banks, Inc. (the "registrant"), certify that:

1. I have reviewed this quarterly report on Form 10-Q of the registrant;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a - 15(f) and 15d - 15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors:
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 31.2

I, Rex S. Schuette, Executive Vice President and Chief Financial Officer of United Community Banks, Inc. (the “registrant”), certify that:

1. I have reviewed this quarterly report on Form 10-Q of the registrant;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a - 15(f) and 15d - 15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant’s disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant’s internal control over financial reporting that occurred during the registrant’s most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant’s internal control over financial reporting; and
5. The registrant’s other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant’s auditors and the audit committee of the registrant’s board of directors:
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant’s ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant’s internal control over financial reporting.

Exhibit 32

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of United Community Banks, Inc. ("United") on Form 10-Q for the period ending March 31, 2008 filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Jimmy C. Tallent, President and Chief Executive Officer of United, and I, Rex S. Schuette, Executive Vice President and Chief Financial Officer of United, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of United.
