United Community Banks, Inc. Reports Earnings of \$11.8 Million for First Quarter 2013

BLAIRSVILLE, GA -- (Marketwired) -- 04/25/13 -- United Community Banks, Inc. (NASDAQ: UCBI)

- Net income of \$11.8 million, or 15 cents per share
- Loans up \$18.6 million from fourth quarter, or 2 percent annualized
- Core transaction deposits up \$81.2 million in first quarter, or 10 percent annualized
- Solid improvement in key credit quality measures

United Community Banks, Inc. (NASDAQ: UCBI) today reported net income of \$11.8 million, or 15 cents per share, for the first quarter of 2013. The first quarter results reflect modest loan growth, improved credit quality, strong core transaction deposit growth, and lower operating expenses compared with the same period a year ago.

"We are off to a good start to what we expect to be another productive year," said Jimmy Tallent, president and chief executive officer. "The first quarter continued our trend of meaningful improvement in every key measure of credit quality. We made particularly strong progress slowing nonperforming loan inflows which, at \$9.67 million, were less than half the fourth quarter level. Nonperforming assets were \$113 million and 1.65 percent of total assets at the end of the first quarter. That is down \$15 million, or 12 percent, from the end of the fourth quarter, and down \$49 million, or 30 percent, from a year ago. Additionally, core transaction deposits increased by \$81 million, or 10 percent annualized."

Tallent continued, "We grew our loan portfolio by \$19 million from the fourth quarter, for an annualized rate of 2 percent. Achieving quality loan growth remains a challenge in what continues to be a sluggish economy. We achieved this growth by bringing on new commercial lenders and by offering new retail loan products that are tailored to meet our customers' financing needs at competitive rates."

The first quarter provision for loan losses was \$11 million, down \$4 million from a year ago and \$3 million from the fourth quarter. First quarter net charge-offs were \$12.4 million compared to \$14.5 million in the fourth quarter and \$15.9 million a year ago.

"The inflow of nonperforming loans was the lowest quarterly total since the beginning of the economic cycle," Tallent said. "The benefit of this trend, which we expect to continue, was clearly evident in our lower net charge-offs and provisioning."

Taxable equivalent net interest revenue totaled \$54.7 million, down \$1.37 million from the fourth quarter and down \$4.21 million from the first quarter a year ago. "The decrease primarily reflects lower yields on our loan and investment securities portfolios," said Tallent. "The lower loan portfolio yield reflects ongoing pricing pressure on new and renewed loans, and new retail product offerings with low introductory rates. The lower investment securities yield is due to reinvestment of cash flows at record low rates. We continue to look for reinvestment opportunities, with a focus on floating-rate securities, to alleviate market and duration risk. Floating-rate securities account for 34 percent of the investment securities portfolio, and improve our interest sensitivity position by reducing exposure to rising interest rates. We would like a higher yield but will not go out on the curve to chase one."

The taxable equivalent net interest margin was down six basis points from the fourth quarter, and 15 basis points from a year ago, to 3.38 percent. "Our net interest margin will remain under pressure as long as interest rates remain at this unprecedented low level," stated Tallent. "To offset the impact on net interest revenue, we remain sharply focused on growing our loan portfolio in the mid-single digit range by focusing on retail loans and by continuing to add commercial lenders in key markets."

First quarter fee revenue was \$12.8 million, compared to \$14.8 million in the fourth quarter and \$15.4 million a year ago. The decrease from the preceding quarter was primarily due to a slow-down in mortgage refinancing activity, a lower overdraft fee total related to transaction and activity levels, and an incentive in the fourth quarter from our debit card network services provider. Closed mortgage loans totaled \$69.8 million in the first quarter compared with \$100 million in the fourth quarter and \$81.7 million in the first quarter of 2012. The decrease in other fee revenue compared to a year earlier was primarily due to two non-core items in the first quarter of 2012: a federal tax refund of \$1.1 million and \$728,000 in gains from the sale of low income housing tax credits.

Operating expenses, excluding foreclosed property costs and a \$4 million fourth quarter charge for settlement of litigation, were

\$41.4 million in the first quarter of 2013 compared to \$42.1 million for the fourth quarter of 2012 and \$43.1 million a year ago. The decrease from both periods was due to management's efforts to reduce costs and operate more efficiently, primarily through reduction in staff levels and related costs.

Foreclosed property costs were \$2.33 million in the first quarter of 2013, compared to \$4.61 million in the fourth quarter of 2012 and \$3.83 million a year ago. First quarter 2013 costs included \$1.19 million for maintenance and \$1.15 million in net losses and write-downs. For the fourth quarter of 2012, foreclosed property costs included \$1.42 million in maintenance and \$3.19 million in net losses and write-downs. First quarter 2012 foreclosed property costs included \$1.62 million in maintenance and \$2.20 million in net losses and write-downs.

As of March 31, 2013, capital ratios were as follows: Tier 1 Risk-Based of 14.3 percent; Tier 1 Leverage of 9.7 percent; Total Risk-Based of 15.9 percent; Tier 1 Common Risk-Based of 8.9 percent; and, Tangible Equity-to-Assets of 8.5 percent.

"We know that challenges remain as the economy continues to struggle and interest rates are at record lows," Tallent continued. "Our focus is on growing net interest revenue by growing loans in a prudent and balanced manner, and pursuing opportunities to grow mortgage and advisory services market share. The environment forces us to be more efficient and work smarter to achieve our goals, and this team is fully committed and up to the challenge. We do expect continued improvement in credit measures that will translate into lower charge-off and provisioning levels."

Tallent concluded, "We constantly look for ways to improve our financial performance by growing our business and improving operating efficiency, all while maintaining the best customer satisfaction scores in the industry. We remain firmly committed to improving our financial results while delivering the best banking experience and growing shareholder value."

- (1) Interest revenue on tax-exempt securities and loans has been increased to reflect comparable interest on taxable securities and loans. The rate used was 39%, reflecting the statutory federal income tax rate and the federal tax adjusted state income tax rate.
- (2) Included in the average balance of loans outstanding are loans where the accrual of interest has been discontinued and loans that are held for sale.
- $^{(3)}$ Securities available for sale are shown at amortized cost. Pretax unrealized gains of \$17.1 million in 2013 and \$23.6 million in 2012 are included in other assets for purposes of this presentation.
- (4) Net interest margin is taxable equivalent net-interest revenue divided by average interest-earning assets.
