

United Community Banks, Inc. Reports Diluted Earnings per Share of 34 Cents for First Quarter 2008

BLAIRSVILLE, GA, Apr 24, 2008 (MARKET WIRE via COMTEX News Network) -- United Community Banks, Inc. (NASDAQ: UCBI) today announced diluted earnings per share of 34 cents for the first quarter of 2008, compared to 44 cents for the first quarter of 2007. Total revenue on a taxable equivalent basis was \$73.0 million for the quarter, compared to \$75.8 million for the first quarter of 2007. Net income was \$16.1 million, compared with \$19.3 million in the first quarter of 2007. Return on tangible equity was 13.16 percent and return on assets was .78 percent for the first quarter of 2008, compared with 17.18 percent and 1.11 percent a year ago, respectively.

"Continued weakness in the residential construction and housing markets and uncertainty in the general economy made for a very challenging quarter," said Jimmy Tallent, president and chief executive officer. "We expect the business environment to remain difficult for 2008. However, we are confident that our business model, strong high-growth markets, and customer service focus will continue to create the foundation for future growth over the longer term."

Loans were up \$566 million, or 10 percent, from the first quarter of 2007 due primarily to the acquisition of First Bank of the South in the second quarter of 2007. "Excluding acquisitions, loans were basically flat year over year," Tallent said. "During the first quarter, total loans were up \$39 million, or 3 percent on an annualized basis. Commercial loans during the quarter saw growth of \$90 million, or 15 percent annualized. This was offset partially by a \$39 million decrease in our residential construction loan portfolio. We are actively pursuing high-quality borrowers in all of our markets, with an emphasis on small business and commercial lending. Through these efforts, we have been able to reduce residential construction loans over the past year from 35 percent to 30 percent of our total loan portfolio."

Total deposits increased \$334 million, or 6 percent, from a year ago due to the acquisition of First Bank of the South. Excluding acquired deposits, total deposits decreased by \$234 million primarily due to the run-off of higher-rate certificates of deposits. We elected not to compete for these high cost deposits without other customer relationships. "While overall account balances are lower, the number of customer relationships has continued to increase and our customer satisfaction scores continue to be at record levels," Tallent said. "This bodes well for us when the economy rebounds."

Taxable equivalent net interest revenue of \$66.3 million reflected an increase of \$1.2 million from the first quarter of 2007. Taxable equivalent net interest margin was 3.55 percent, compared with 3.73 percent for the fourth quarter of 2007 and 3.99 percent for the first quarter of 2007. "Our net interest margin continues to be under pressure on two fronts," Tallent said. "One is competitive deposit pricing that has kept us from lowering rates on our deposits as quickly as we repriced our prime based loans. The second is the increase in the level of non-performing assets this quarter. We expect these conditions to continue to put pressure on our margin as financial institutions compete for liquidity and as we aggressively move non-performing assets off of our books."

The first quarter provision for loan losses was \$7.5 million. Net charge-offs for the first quarter were \$7.1 million compared with \$13.0 million for the fourth quarter of 2007 (excluding the Spruce Pine fraud-related charge-offs), and \$1.5 million for the first quarter of 2007. Annualized net charge-offs to average loans was 48 basis points for the first quarter of 2008 compared to 87 basis points for the fourth quarter of 2007 and 11 basis points for the first quarter of 2007.

"In the fourth quarter, we identified problem credits, aggressively took charge-offs and write-downs, and increased our allowance for loan losses to prepare for the challenges of 2008," Tallent said. "We continued this process in the first quarter and provided \$7.5 million for loan losses. This enables us to maintain our allowance for loan losses at an appropriate level for the current credit environment. We will continue to closely monitor our credit quality and the loan portfolio to ensure that we remain adequately reserved."

At quarter-end, non-performing assets totaled \$89.9 million, compared with \$46.3 million at December 31, 2007 and \$14.3 million at March 31, 2007. The ratio of non-performing assets to total assets at the end of each quarter was 1.07, .56 and .20 percent, respectively.

"United's credit quality indicators reflected the national trend of rising delinquencies and foreclosures in the housing and residential construction markets," stated Tallent. "We will remain diligent in managing through the challenges, taking whatever steps are necessary to put problem credits behind us. Although we remain guarded in our credit quality outlook, we are cautiously optimistic that the traditionally higher-sales months in the spring and summer will bring buyers back into the housing market, providing some welcome relief."

Fee revenue of \$14.2 million was down slightly from \$14.4 million for the first quarter of 2007, primarily due to nonrecurring revenue in the first quarter of 2007. Service charges and fees on deposit accounts of \$7.8 million increased \$560,000, or 8 percent, from the first quarter of 2007 due to growth in transactions and new accounts as well as higher ATM and debit card usage. Brokerage fees were up \$149,000 to \$1.1 million due to strong retention efforts and new customer outreach. Other fee revenue of \$1.5 million was down \$487,000 due to a gain on the sale of property and a recovery of overpaid brokered deposit interest in the first quarter of 2007.

Operating expenses of \$47.5 million reflected an increase of \$2.7 million, or 6 percent, from the first quarter of 2007. Salaries and employee benefit costs of \$28.8 million were \$437,000, or 2 percent, higher than the first quarter of 2007. The acquisition in the second quarter last year added approximately \$1.4 million, which was more than offset by lower incentive compensation in 2008. Occupancy expense increased \$525,000 to \$3.7 million due to the cost of operating additional banking offices. Professional fees increased \$442,000 to \$1.9 million, reflecting higher fees associated with loan work-outs and foreclosures. Other expenses of \$5.6 million were \$1.8 million higher than a year ago due to \$911,000 of additional write-downs and related costs on foreclosed properties and an increase in FDIC insurance premiums of \$923,000.

"The efficiency ratio for the first quarter of 59.05 percent was above our long-term target range of 56 to 58 percent," Tallent said. "This was driven primarily by higher legal costs and write-downs on foreclosed property. We continue to remain disciplined on expense controls."

The Board of Directors approved the second quarter 2008 dividend of 9 cents per share, which is the same dividend level that was paid in 2007. "At quarter-end, all of our regulatory capital ratios were above the 'well-capitalized' level and our tangible equity-to-assets ratio was 6.73 percent," Tallent said. "Our core earnings have allowed us to build capital, improve ratios and provide strength for current and future challenges. We are intently focused on maintaining capital at a level appropriate for the economic environment.

"With the uncertainty of the economy and the ongoing credit issues in the housing and residential construction market, 2008 will not be an easy year for banks," Tallent concluded. "I want to thank our employees for their dedication and focus: no matter the economic cycle they continue to deliver the highest customer satisfaction scores in the industry. True to form, they are maintaining and enhancing the kind of deep customer relationships that will drive United's growth and success when the economy improves."

==========

- (1) Interest revenue on tax-exempt securities and loans has been increased to reflect comparable interest on taxable securities and loans. The rate used was 39%, reflecting the statutory federal income tax rate and the federal tax adjusted state income tax rate.
- (2) Included in the average balance of loans outstanding are loans where the accrual of interest has been discontinued.
- (3) Securities available for sale are shown at amortized cost. Pretax unrealized gains of \$15.9 million in 2008 and pretax unrealized losses of \$10.0 million in 2007 are included in other assets for purposes of this presentation.
- (4) Net interest margin is taxable equivalent net-interest revenue divided by average interest-earning assets.
